

# Technology & Digital Digital Transformation

Senior Consultant

## BCS Consulting, part of Accenture – What we do

BCS Consulting, part of Accenture, sits within Accenture's Financial Services Strategy, and Consulting function in the UK, and was recently acquired by Accenture to strengthen their U.K. Financial Services Consulting and Technology Services Capabilities ([Accenture Acquires BCS Consulting to Strengthen its U.K. Financial Services Consulting and Technology Services Capabilities | Accenture](#)).

We're committed to delivering excellence and that's why world leading financial services businesses rely on us to bring about effective change within their organisations.

Our portfolio includes a varied and interesting range of multinational and UK banks, Wealth and Asset Management companies, Insurance firms and payment and card companies.

As a team of experts, we understand the importance of building on firm foundations and that's why you'll always find a broad range of core management consulting skills at the heart of our organisation.

### The opportunity

BCS Consulting, part of Accenture, are looking for a candidate who can join our Technology and Digital service line with a specific focus on Digital Transformation. This encompasses Technology Delivery, understanding of Cloud Technologies and a keen focus on Scaled Agile.

We are looking to significantly expand our capabilities and market footprint in this area by building expertise in a number of core disciplines which mainly align around core technology delivery roles (e.g. Product and Portfolio Owners, Delivery Managers, Scrum Masters, Release Train Engineer). In addition, we're looking to bolster our capabilities within specific areas such as Scaled Agile Methodologies (e.g. SAFe), Cloud Technology and Testing and Implementation management

This is a unique opportunity to help bolster our credentials with our clients, be part of industry fronting change and developing within a specific expertise area. Your knowledge in consulting and in this specific area will enable you to not only build our portfolio and market presence, but also help to develop and grow the team internally.

At BCS, part of Accenture, your career matters, that's why we invest in training and development, so alongside your day-to-day role you will have access to amazing development opportunities allowing you to direct your career progression.

### Responsibilities

You will be required to:

- Work on a number of different types and sizes of projects, focussed around delivering success client outcomes with a focus on Technology transformation
- Provide industry experience, knowledge and understanding of Technology
- Lead client engagements/ workstreams, managing successful delivery to client satisfaction
- Working alongside client teams and sponsors to identify and deliver business and technology change
- Proactively develop client relationships to create additional business opportunities
- Identify, drive and develop new commercial opportunities based on your expertise
- Take a leadership role in the expansion of the commercial proposition and its associated services (including creation and maintenance of Intellectual Property)
- Manage and mentor Consulting employees

### Skills and Attributes

- Previous experience will be in a Management Consultancy with a specific focus on Technology delivery. Areas of expertise and experience should include (but not be limited to) a number of those listed below:
  - Scaled Agile, or significant experience in hybrid delivery methodologies
  - Cloud Technology
  - Management of technical change

- Project / Programme Management
- Quality Assurance and/or Implementation Management
- Digital trends in Financial Services
- Knowledge of general technology and data management processes and structures
- Experience of managing consultants and supporting them in achieving their goals
- Able communicator with excellent written and presentation skills
- Strong academic background
